Live Keyword Density Analysis Calculator

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This tool calculates keyword density on the fly in real time. All you need to do is to add up to 3 keywords that you want to test for, then paste in the body of text you want to optimize. It calculates your keyword density on the fly, so as you make changes to the text, the keyword densities are updated automatically.
