Live Tweets - jQuery plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

You can search on hashtags (#apple), usernames, @mentions and more using the Twitter operators. All results will be pulled into your website resulting in a up to date feed. Its completely written in JavaScript using the jQuery framework, no database or serverside scripting language is required. We recommend the Live Preview! Features - Twitter operator based search. - Set the number of start tweets. - Set the tweets per second. - Convert hashtags and usernames to links. - Show thumbnails on/off. Features - Live Tweets - Search on all available Twitter operators (http://search.twitter.com/operators) - Customize through CSS - Easy implementation
