Log Monitor for PHP 4

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script can monitor several log files at the same time, showing any lines added to one of these log files automatically (or semi-automatically if you want, by disabling auto-refreshing). Can operate with or without frames, and will transparently generate the needed frameset and frame pages.
