Lookup Runner

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Advanced yet easy to use store locator, zip code locator with Google Maps integration, easily installs into any existing page. Responsive design, WordPress plugin, white-label version, CSV upload, international locations, search statistics. Lookup Runner allows your website visitors provide a zip (postal) code, address or location name, then it searches for your stores, dealers, hotels, restaurants, ATMs, products, locations, etc, and returns nearest matches sorted by distance, complete with online Google map. Lookup Runner works perfectly well both as a WordPress store locator plugin and as a standalone PHP zip code locator.
