Provide smart search results to your customers. Our Advanced Search extension for magento includes powerful features like product attributes, auto-complete, auto-suggest and search similarity, without the expensive costs associated with Sphinx and Solr. Catalog Search is always an important part of any ecommerce system because it seems impossible to show all products with full details to customers at the same time. With a powerful catalog search tool, a web-store can increase selling chance as well as customers' ease of use. Advanced Search extension for magento replaces standard Magento search and brings a power of external search engine to your store.
