

Magento Ajax Cart

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Keep inspiring your customers and minimize their efforts in the process of purchasing now! This extension allows customers to add products to cart from the cart page or product list pages simply and extremely fast with convenient pop-up forms. With our Ajax Cart extension, your consumers will not be redirected to the product page each time adding items to cart or removing items from cart. Thus, they no longer have to wait for pages to refresh and more comfortably enjoy shopping! Feature +For customers: Ability to easily add products to cart from product list pages (For example: category page, search page) or the cart page. Allow selecting custom options of products before saving to cart with a convenient pop-up form. Able to comfortably add, delete products from cart and continue shopping without waiting for pages to reload. Allow editing the minicart by Ajax. +For admin: Easy to install and configure. +Others: User-friendly interface.
