Sizes, Materials Colors Swatch PRO allows you to display options of configurable product in the catalogue (category pages, search results, product list by tags or other filters) and the product page. With Colors Sizes and Materials Swatch PRO your customers can see the real view of a configurable product in different colors, designs, materials. The product gets changed instantly, depending on the options, you have picked (color, size, material). If you have too much options for one configurable product (too many colors for instance) you can set only few of them to be displayed on the catalogue page, with a link to full number of colors. Altogether Sizes, Materials and Colors Swatch PRO is a perfect tool for huge and growing clothes stores or any other store which need to grant its customer a possibility to pick some options of a configurable product. Colors Sizes and Materials Swatch PRO is easy to install.
