Mobile Number	{value_mobile_number}
Email	{value_email}

Cmsmart has released a new useful extension for Magento shops which is called Magento Delivery Date Extension. The extension allows your customers to choose delivery date, delivery time and write comments while they are choosing a shipping method. The extension has two options for customers. Default allows shoppers to choose a delivery date, and a drop-down list of delivery time. Customers can delete the chosen date and select any date again.
