

# Magento Knowledge Base

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

All the documentation created by store owner is displayed by means of articles assigned to admin-defined categories. The process of documenting is intuitively understandable and uses familiar standard Magento interface. A rich set of the Knowledge Base Magento module settings makes the extension fully customizable – you can define articles listing type (short or full), limit article description length, manage articles rating, upload attachments for articles, etc. You are also able to specify the options of each block – Category, Top Articles, Latest Articles and Tags – by setting up their title, sort order and number of articles displayed. FEATURES Professional interface with CMS-friendly blocks Frontend section combined with Search, Category Articles, Top & Latest Articles independent blocks Smart search engine SEO-friendly direct links Articles sorting by date and rating Article text WYSIWYG editor Article categories
