The Local Store Pickup Shipping Extension is useful when you are selling products in many locations with different store. The extension is integrated with Google Map so customers easily find the nest Local Store to pickup the products after purchasing. HOW IT WORK Once you enabled this module in admin, the new shipping method will be shown up on Checkout page(compatible with One Step Checkout). Customers will be able to choose this shipping method. After checking out, the Store Pickup link will be sent with Order Email confirmation, follow the link will lead to Google Map where all your stores are listed on.
