According to recent researches, there is an increasing number of customers who use mobile for shopping. Hence, Cmsideas have created Magento mobile theme that will help you take use of mobile device for your business as much as possible. Magento Mobile Theme is a necessary Magento theme which allows you to install into your Magento store, and set up the configuration on color, layout and so on to fit with your current theme. Especially, whenever a shopper browses your website via mobile devices, the mobile system automatically detects and switch to the mobile layout. Then you have a perfect mobile website and users can go shopping and payment via their mobile interface. This theme can work well for the iPhone, iPad, Android, Blackberry, Windows 7, Palm Pre and many other devices. Give your visitors a beautiful interface to your Magento store.
