Magento Personal Pickup

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The Personal Pickup extension adds a new shipping method and allows customers to pick up their orders in the nearest store or any other pickup location. With Personal Pickup, it is possible to add an unlimited number of pickup locations. The module allows showing either all pickup locations at once or depending on the customers' postal code. Allow your customers to pay for the order on picking up.
