

Magento Recurring Payments Extension by Apptha

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

General Supports recurring payments made only via PayPal Express Checkout. Compatible with Magento 1.9 community edition. Supports 'Simple' and 'Virtual' product types. Improves sales by providing multiple payment periods instead of one-time payment. Registered customers can keep a track of their subscriptions and payments through their 'Recurring Profile' Back end Admin can provide multiple subscription plans (daily, weekly etc) for a single product. Four subscription types can be provided namely 'Day', 'Week', 'Month', 'Year'. 'Billing Period Price' option can be used to set the price for a single billing in a subscription period 'Billing Frequency' can be used to set the frequency of payment for a subscription type. 'Billing Cycle' can be used to set the time of completion of a billing cycle. Starting date of a subscription can either be set by the customer or activated from the date of purchase.
