Social Login Magento General Features FOR CUSTOMERS Customers have many options of social account to sign up. There are up to 4 types of social accounts they can use to log in. No other information is required. If customers already signed in their social account, they don't need to type their account name and password again. System will use information from their social account to sign in. If customers do not want to log in by their social accounts, there will be a pop up to register as normal. A new password will be sent to customers to use as a separate account for the site after they sign in by social accounts.
