

Magento Store Locator

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Magento Store Locator by BSSCommerce is an ideal and must-have extension that can motivate your trading, save time and money for your company and your customers. Our extension adds a special area to your Magento site, where you can list your offices, be it stores or service centers, etc. Each of the listed locations is displayed on the interactive map (powered by Google Maps), and can be supplied with additional information and the working hours schedule. Moreover, a customer can find the nearest office with the Store Search functionality. "Find My Location" option can automatically identify the visitor's location and further suggest the stores that are located within certain radius.
