View your images in their entirety. This 360 degree viewer was built for Magento Commerce. It uses JavaScript and a set of photos spaced at equal degrees to create the spin effect. You can customise the speed, borders, effects, blurring, autostart and other options. Magic 360 works on iOS devices (iPhone, iPad, iTouch), most Android devices and all major browsers including Internet Explorer, Firefox, Chrome, Safari and Opera. The Magento extension makes it easy to install and customize. If you need help, please contact us.
