Magic Scroll is an easy way to display many images without losing the look and design you have created in WordPress. It allows you to scroll images, text, SWF, movies and HTML. Examples of these are: latest news headlines; "people who bought this also bought" and promotional banners. Easy to install, takes just 4 simple steps. You can customize the scroll; arrows; slider; effect and more using your WordPress admin area. For users interested in HTML we have the Magic Scroll wizard for beginners. For intermediate/advanced users we have 16 JavaScript settings and endless CSS options for you to try. Magic Scroll can be used by anyone! Works on all major browsers, iPad, iPhone and most Android devices too. Contact us for any help.
