Frequently updated and used on thousands of websites, this is the best way to zoom into product images and also enlarge them to the full screen. It uses JavaScript and CSS to achieve the effect. The HTML is clean and W3C valid and it works on all browsers including Firefox, Internet Explorer, Chrome, Safari and Opera. It is iPhone and iPad compliant - simply tap the image and it opens the zoom version. If you need to increase sales, download this module and see the difference it makes to your Magento store. This Magento extension is also listed on the official Magento Commerce website where customer feedback is 100% positive. If you need any help, please contact us.
