Magnolia is the Open Source content management system that delivers simplicity on an enterprise scale. Its outstanding combination of ease-of-use with a flexible, standards-based Java architecture has attracted enterprise customers including: ING, JBoss.org, Johnson & Johnson, Lloyds TSB, Sony, Seat, Unilever and The US Department of Defense. Magnolia is used by governments and leading FORTUNE 500 enterprises, and in more than 100 countries on all continents of the world. Magnolia International Ltd. is the creator of both the Open Source Community Edition and its Enterprise Licensed Editions of the Magnolia CMS. Full global service, support, implementation, consulting and training for enterprise clients are delivered by Magnolia together with its international network of qualified partners.
