

Make This Page Your Homepage Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This short, simple, cut-and-paste script opens the Set Homepage dialogue in IE 5 and later browsers, letting your visitors set your page as their homepage. Uses IE5 conditional comments so that the link does not show in browsers that do not support this feature. Quick and easy!
