

MatchMasters Pro

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

MatchMasters Pro personals is a completely automated cgi system which allows members to signup instantly, have their account information emailed to them and interact with other members online. Members can browse the database or refine their search criteria to find the mate they are looking for specifically. Search results are broken down into 10 per page and members search criteria are saved in the event that no suitable matches are found. A matchbot program may be set to run through the entire member database and search histories to notify by email any member that the matchbot finds a suitable match for. This pulls older members back to the site to retrieve the results. Members may also upload pictures of themselves, send messages to each other, and bookmark other members they want to keep in touch with. All contacting through the site retains complete anonymity for the security of the users (including their REAL email address). All members are known to each other
