McFunSoft Video Solution is a powerful video tool to capture, convert, edit and burn. It can capture from DV, web camera, VCR, TV tuner, and analog camera; convert any most-used video with high-quality in high-speed; split and merge video files in different formats; edit videos with more than 40 kinds of effects; burn videos into DVD/VCD/SVCD. Both PAL and NTSC are defined in McFunSoft Video Solution, which means you can capture videos from any most-used TV channel, and burn to DVD/VCD/SVCD. You may have a video need more brightness, and this solution can help you. More than 40 kinds of effects can be added to videos, so that you got the best optimized video before burning. No matter avi to DVD, or MPEG to RM, any most used video formats can be converted in it.
