

# mCore - SMS & WAP Push Component

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

mCore Lite is a robust and easy-to-use component that will enable your desktop or web based applications for 2-way SMS & WAP Push. It can be used with any ETSI 07.05 compliant GSM modem or phone handset connected to the PC serial port using a data cable or Infrared device etc. mCore can be used for developing applications that require to send/receive SMS in English as well as applications that require to send/receive SMS in local languages (e.g. Arabic, Chinese, Thai, Greek, Hebrew, Russian, Hindi etc.). Allows you to specify the action, created and expiry attributes for WAP Push
