MedLink is a CGI Medical database and analysis program. Ideal for any medical sites; from general medical sites to specific sites such as optometry sites, cancer sites, cardiovascular sites, even vetenerian sites! Easy to use database allows you to enter symptoms, diagnosis names and the URL that corresponds to the diagnosis. The URL can be an HTML file, a text file, a specific site, a downloadable file, etc. The possibilities and uses are almost endless. Also includes a cardiovascular risk assessment module (registered), an ideal weight module and a lifespan calculator. Each is called from a web page so use any or all that you want.
