Mega FFA Submitter is a perl script that allows you to automatically submit your url to a growing list, feeded with new free for all link pages. The biggest advantage of this script is that allows full control and updating of the files which contain urls for posting. This can be done very easily and at any given time. It's up to you to add new ffa pages and extend your submission database as you like. The script is accompanied by Linkstation Submission Database that can submit your url successfully to over 1500 ffa sites.
