

Members Admin SQL

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Members Admin SQL is a complex but easy to use and very fast MySQL database driven script that allows you to manage all your members and password protected directories from your website. Features: AuthType Basic, Digest, MySQL. Multiple member databases, and multiple administrators. Every member database has its own configuration, each with support for more than 200,000 members. Also includes an option for creditcard processing.
