

MessageBulletin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

MessageBulletin is a very neat Message Board, that prints out on a Main Board From whom To whom, a Subject and Time, and what Priority it has. When a Message is entered, it prints out a new, seperate file which gets linked to the Main Board. Supports threads and optional monthly expiration. Great for webmasters that like easy-to-use discussion forums.
