Email	{value_email}

This title is the ideal step-by-step introduction for developers who want to learn Active Server Pages+ (ASP+) scripting technology, which offers powerful new possibilities for writing clean, reusable, scalable code for Web pages. It offers a solid, practical introduction to ASP+ and related technologies, including the Common Language Runtime (CLR), Microsoft Visual Basic, Microsoft Visual C#(tm), and the Microsoft .NET Framework. It also provides real-world examples and code samples to help developers solve daily Web challenges.
