

miniStat .net – Free statistical tool for any asp.net website

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

miniStat .net is a simple yet robust hit tracker/ hit counter. It provides statistical information on the users to any asp.net website. It tracks unlimited users and is only limited to the size of your database. miniStat .net tracks your user's hits, unique hits, referring domains, search engine queries, operating system, browser type, recent referrers, and languages. All of this for free. It is intended to be an open source development project where asp.net developers can use free of license or charge, it can also be added on to. The hope is to create a powerful opensource asp.net statistical tool that is 100% free.
