Missing Person Data Center

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Packed with enough features to be a full site right out of the package. Originally created specifically for a missing person organization, we have incorporated all the features of a professional organization at a price everyone can afford and easy enough for anyone to operate. This program comes with a full secure administrative back end making it easy to change just about anything in the program. The top menu on the left side (as well as the pages they link to) are all generated via the administrative interface. The design is easily changeable through HTML templates and CSS Style sheets.
