

# Mivhak Syntax Highlighter

|                       |                        |
|-----------------------|------------------------|
| <b>Address</b>        | {value_address}        |
| <b>Contact Person</b> | {value_contact_person} |
| <b>Mobile Number</b>  | {value_mobile_number}  |
| <b>Email</b>          | {value_email}          |

Have you been looking for a syntax highlighter that is safe to use on both the visual and the HTML WordPress editor? What about a tool that highlights your syntax While writing your code, and also checks for syntax errors? Well, look no further. Mivhak is a lightweight syntax highlighter for WordPress, based on a slightly modified version of the great Ace Code Editor. Mivhak comes with a simple settings panel that allows the user to setup basic plugin behavior and appearance. Additionally, code can be easily inserted to both the HTML and the visual editor using a TinyMCE popup the features live syntax highlighting and error checking for 100+ languages.
