Have you been looking for a syntax highlighter that is safe to use on both the visual and the HTML WordPress editor? What about a tool that highlights your syntax While writing your code, and also checks for syntax errors? Well, look no further. Mivhak is a lightweight syntax highlighter for WordPress, based on a slightly modified version of the great Ace Code Editor. Mivhak comes with a simple settings panel that allows the user to setup basic plugin behavior and appearance. Additionally, code can be easily inserted to both the HTML and the visual editor using a TinyMCE popup the features live syntax highlighting and error checking for 100+ languages.
