MJ's CD Archiver (MCA) is a data CD/DVD and hard drive file archiver that combines high performance and usability with a simple and intuitive user interface. Using MCA one can archive one's entire file collection and search on the file names using various options such as DOS-styled wildcards or even regular expressions, or filter files by options such as file size, modification time etc. Search results on hundreds of thousands of files are delivered instantly with highlight. One can also further filter previous search results and store search results and history. Windows shell integration allows convenient archiving or updating of archives. Support is provided to allow user to set up automatic update of any folder/drive! MCA also works on all major Operating Systems. MCA is also a special donateware where ALL proceeds directly go to charity!
