

Mobile Redirect Script Plus

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a mobile redirect code that will initially redirect all mobile devices visiting your website to a specified url. Then, it allows the user to click a button or text link to take them back to the main website. On the main website can be an image or text link that redirects them again to the preset mobile page.
