Mobile Number	{value_mobile_number}
Email	{value_email}

Mojo Clicks is a simple click-through tracker. It can easily be installed in just 4 steps: 1) Create the database 2) Load the mysql tables 3) Configure the database definitions file 4) Use the script It uses PHP and MySQL to process data. Features: 1) Links and referrers can easily be edited to reflect descriptive names 2) Links and referrers can also be categorized The benefit of having the referrer is to know what pages produce the most number of click-throughs.
