

Mortgage Application and SQL Database

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Fully intergratable online web mortgage application form that submits form applications into the SQL database. Every time someone fills the form out you will be notified via email, also fully customizable ASP script with standard HTML form that can easily be placed on a network of websites that dumps into the same database, also every HTML form you put out there has a forward on it so that when the user clicks submit, the database returns a thank you page on originating site.
