

MP3 Streamer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Streaming Jukebox allows your websites visitors to select a playlist of mp3's on your site and then streams the selections they made in order to their winamp or windows media player. This script is fully automatic and allows you to set it to look just like the rest of your website by use of external html templates. It is simple to setup and an enjoyment for your users, which means it will keep them coming back to your website over and over again.
