Multi-Warehouse Plus Magento extension

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Multi-Warehouse Plus allows to set up multiple shipping origins under a single installation, flexible shipping configurations, control stock in different physical locations through the same admin interface as well as many other functions. It enables currency-tier-price-per-warehouse and currency-special-price-per-warehouse offerings, allows to overwrite a product price for each warehouse, currency and store view individually and to set different levels of discounts depending on customer's geo location.
