Our Java and HTML5 based bingo applications include everything you need to launch an online casino, or add exciting content to your free-play destination. Fully customizable with a 12 year history of stability. Features comprehensive backoffice reporting and administration, multiple animated themes with stunning graphics and sounds. No other software package is as affordable or customizable. Bingo features 75 and 90 ball variations with tons of features, animations, music, and automated tournaments. Requires dedicated Windows or Linux/Unix server with Java installed, and SQL Server or MySQL database.
