

Multiple Email Addresses 1

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This JavaScript presents users with a dropdown menu with multiple email addresses. Users can then select who (which email address) they want to email and open up their default email client by pressing "View Mail Window" button. The selected email address and subject will be automatically inserted in the users email windows.
