My ASP Paypal E-Goods Protector

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Using Paypal's IPN technology this software will prevent people from stealing your software. After each successful payment, the download url is sent automatically by email to the customer. This will avoid the vulnerable "return url" variable. It is written in ASP/VBscript using Macromedia Ultradev and is 100% customizable and extendible.
