My DataBook

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

My DataBook is a personal organizer/planner. Features include eMail reminders, calendar, journal, appointments, and contacts. The great thing about this script is that it is powerful, yet very simple. Anyone with a little php experience could make countless enhancements to the script. Download away! *This great script was created by Toby over at theadminshop.com. He dropped the GPLd version to pursue a commercial script.
