myLittleWriter allows you to easily create RTF files on the fly. You can use myLittleWriter in your ASP.NET pages, in your classic ASP pages or in your .NET applications. You DON'T NEED to have MS Word installed on the server to use myLittleWriter. myLittleWriter is very efficient when you need to create reports, invoices or quotes on the fly. myLittleWriter generates real RTF files, which means that you can open generated files with almost all word processor softwares.
