myLittleWriter is a .wsc component which allows to easily create RTF files on-the-fly from ASP pages. You don't need to have MS Word installed on the server to use myLittleWriter. myLittleWriter is very efficient when you need to create reports, invoices or quotes on-the-fly. myLittleWriter generates real RTF files which means that you can open generated files with almost all word processor softwares. New release 2.0 now available !
