

MyMail Webmail

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

MyMail is straight out of the box webmail. It requires no database or user configuration. MyMail is small, fast, and robust and will not bog down your server if you have a large amount of mail users. MyMail is portable and will work with Windows, Linux, and BSD. MyMail has a simple administration interface for viewing documentation, common problems and fixes, and mail server status plus uptime.
