Mobile Number	{value_mobile_number}
Email	{value_email}

MySQL 2 Excel KonvertR is a small application that automatically exports the entire contents of a MySQL Database to an Excel Workbook, without using ODBC. Features: All tables of MySQL database converted simultaneously; Column headings in each Excel Worksheet named after the MySQL table's Field Names; Excel Worksheets named automatically after the MySQL tables in the database; Excel Worksheets ordered alphabetically in the Workbook; No need for ODBC connection/ODBC drivers for MySQL. One-file .exe: Nothing to Install or Uninstall!
