Navigation Menu

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This JavaScript navigation menu sends users to other Web page/site upon link selection change. It works by using the onChange function of the SELECT object to tell the window to load a new document. The URLs of the documents to jump to are given by the VALUE of the various OPTION tags contained in the SELECT.
