

# NetToolWorks.NET S/MIME component

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

The NetToolworks.Net S/MIME component allows .NET developers to quickly and easily add advanced E-mail encryption, decryption, signing and verification capabilities to their applications with minimal coding. S/MIME comes either as a standalone product for existing owners of our Mail component or packaged with Mail for .NET, our robust and rugged e-mail component package.
