This is the vertical version of our awesome Sliding News Reader Module. It is an advanced news reader file that supports unlimited item and can be resized. As you can see in the preview, it can also be used as a scrolling menu with autoplay. It is very smooth and the code is well optimised, this is a top quality file. It is also easy to use and implement and would be a great addition to your project. Among the Features: - XML driven, resizable - Unlimited number of news entries - Set width and height of the component - Set number of visible news items - Set horizontal/vertical spacing - Set news item width and height - Toggle customizable image reflection - Set scrollbar width - Set customizable autoplay - Set side images blur amount - Set slide time - Mouse wheel scrolling All flash source files included. Enjoy this new release from Oxylus Flash.
