

# Newsletter Sender and Subscriber Control Add on for X-cart

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Our newslist control add on for x-cart lets you: - Send professional style HTML and Plain text multipart newsletters at the same time, no need to worry about which your customers can read. - One click unsubscribe link automatically added to outgoing emails - Allows you to search your newsletter mailing list - View your newsletter mailing list - Edit your mailing list - EXPORT the entire mailing list to text file - BATCH import addresses directly into the x-cart mailing list - Has been tested on sending newsletters with emailing lists as large as 180,000 emails - Designed to be friendly to your server - Can work with both Sendmail or PHP mail. - Unlike other newsletter solutions, this works with the x-cart standard subscription list.  
Requirements: -X-cart 3.2.2 or higher -Unix or Windows
